

Sure-Grip Avanti plate

Sure-Grip brings you the next generation in plate design, the Avanti. Offered in both Magnesium and Aluminum, this 10 degree double action plate is built to last. With our exclusive use of magnesium in plate construction, we've crafted a sleek hollow design to give skaters performance and durability without sacrificing lightness.

We've made mounting easy by including four mounting holes in the front of the plate to aid in mounting different boot types. Mounting hardware included.

The Avanti Magnesium Plate includes a newly designed precision adjustable pivot truck that can withstand the intensity while giving you balance and durability. The truck and plate are powder coated with a white finish. The Avanti polished Aluminum Plate includes a standard fixed pivot double action truck with a polished aluminum finish. Both trucks will include black axle nuts and four standard and four conical cushions 85A hardness.

Magnesium alloy plate (white plate) is roughly 48% lighter than the aluminum version (Aluminum plate).

Specifications:

*Weights are measured as one (1) plate with kingpins, pivot inserts, and toe stop screws.

Size	Avanti Mg (g)	Avanti Al (g)	Axle distance (mm)
1	238	330	118
2	243	337.5	128
3	248	345	138
4	253	352.5	148
5	258	360	158
6	263	367.5	168
7	268	375	178
8	273	382.5	188
9	278	390	198

*Weights and wheelbases may vary due to inherent variability in the manufacturing process.

Recommended plate size chart

Boot Size	Plate Size
